Re: *Litigation By The Numbers, 4th Edition*

Dear Julie:

Thank you for the instructor review copy of the latest edition of your book, *Litigation By The Numbers*. We have used the previous edition of your book in our Civil Litigation I and II and Legal Transcription classes for several years, and will be using the new edition beginning in August. All of the Civil Litigation teachers on my staff have spoken to me of the value of the book. I have also taught the courses myself, and know from personal experience just how valuable your book is to students.

Our Civil Litigation classes have both theoretical and practical components. The fourth edition is a great manual for the practical side of the course. I especially appreciate the chapter introductions and vocabulary sections that precede the sample forms and pleadings. The instructions are clear, concise, and simple to follow. The Orange County Supplement is particularly helpful to us because most of our students will work in Orange County law offices upon graduation. I like the new full-size page format of the fourth edition.

Litigation By The Numbers, 4th Edition, is a wonderful classroom instructional manual and resource that students will be able to take with them when they go to work in law offices. I should note that one student came to school with instructions to purchase a copy of the book for her lawyer-employer.

Best regards,

William B. Dixon
Paralegal Program Director
