Litigation by the Numbers®

and

California Civil Litigation and Discovery

The purpose of this list is to illustrate how our two books are intended to work together. It is not a full list of topics. Generally, *California Civil Litigation and Discovery* ("CCLD") focuses on substance; *Litigation by the Numbers®* ("LBTN") on procedure. Some topics are covered in both books, some only in one. Depending upon the length and focus of the course, the instructor may wish to eliminate topics, devote several class sessions to individual topics, or rearrange topics.

Note: For Chapter 2, instructors may use a PowerPoint video narrated by Julie A. Goren, entitled "Calendaring in State Court: Steps and Traps for the Unwary" in lieu of lecture. See a preview here: <http://www.litigationbythenumbers.com/seminars>. Contact us about accessing the full version to show in class for free; it is not to be disseminated to students.
